Find, install and publish Python packages with the Python Package Index

Search projects

Or browse projects

534,891 projects   5,638,322 releases   10,932,651 files   810,727 users

The Python Package Index (PyPI) is a repository of software for the Python programming language.

PyPI helps you find and install software developed and shared by the Python community. Learn about installing packages ↗.

Package authors use PyPI to distribute their software. Learn how to package your Python code for PyPI ↗.
